

MPE720 improvement item and bug fix change

1. Function addition and improvement item

Items added and features improved from MPE720 version 5.39 to version 5.39A are as follows.

No.	Function item	Classification
1	The group folder name check is defective.	Bug fix

2. Correction content explanation

No.1 The group folder name check is defective

The group folder name below the second hierarchies and the order folder name were checked to number of characters(8 characters). When create two or more hierarchy group folder. Therefore, warning "Please enter no more than 8 characters" was displayed when create the PLC folder and the change in online/off-line were done by the hierarchy that exceeded these limitations, and because it was not possible to operate it, this is modified correctly.
